2-in-1 TEES-N-BIBS

Inventor: Sharlene Shaw

12/21/04

Detailed Description

The 2-in-1 Tees-N-Bibs will have snaps and velcro on each of them to insure the bib stay in place, under the child or infant neck. The bibs will have designs on them, the velcro strip will have the rough side of the strip attach to the bib, that will come off when the bibs are detached. And the soft side will be attached to the actual Tee Shirt for less irritation to child skin. The bibs and tee shirt will have an extra thick soft strip of fabric on the neck line for a more comfortable fit.
